LinkedIn | Portfolio | GitHub

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience delivering production web and mobile solutions across PHP/MySQL, React/TypeScript, WordPress and Flutter. Experienced in REST APIs, authentication/RBAC, CRM and booking workflows, third-party integrations, deployment, migrations, DNS/SSL and production troubleshooting. Strong end-to-end ownership from implementation through live support.

WORK EXPERIENCE

Pandssa Web Media

Apr 2025 - Present

Full-Stack Web Developer

- Develop and maintain business websites, PHP/MySQL applications, CRM systems and REST API integrations from implementation through production support.
- Delivered and maintained 12+ WordPress business websites using Elementor and custom PHP/CSS, including responsive pages, forms, integrations and reusable site components.
- Build and support CRM/business workflows with authentication, role-based access, lead handling, follow-ups, dashboards and third-party API integrations.
- Handle production operations including hosting deployments, website migrations, DNS/SSL, domain renewals, server maintenance, WordPress troubleshooting and security hardening.
- Completed DLT/SMS setup work including entity/header/template registration support and OTP API configuration for compliant transactional messaging.

Qadiri IT

Jan 2025 - Mar 2025

PHP Developer Intern

- Developed PHP/MySQL CRUD modules, database schemas, form validation and secure session-based workflows.
- Performed backend debugging and reliability fixes for database-driven web applications.

Redcaso Solutions

Aug 2023 - Dec 2024

Flutter Developer

- Built responsive Flutter applications and integrated REST APIs for mobile-connected business workflows.
- Handled Android debugging, testing, performance improvements and deployment workflows.

SELECTED PROJECTS

Zentrow CRM | React, TypeScript, PHP, MySQL, REST APIs

- Modernized a role-based CRM into a React/TypeScript SPA while preserving existing PHP APIs and MySQL business logic.
- Implemented authentication/session recovery, admin and telecaller workflows, lead assignment, status updates, call results, follow-ups and dashboard data.

SpotMyStudio | PHP, MySQL, Razorpay, Google Maps

- Developed booking workflows for studio discovery, availability, customer/vendor operations and online payment integration.
- Integrated Razorpay and Google Maps with production-oriented validation and booking logic.

BinBux | Flutter, PHP, MySQL, REST APIs

- Built mobile workflows for scrap-pickup logistics, scheduling and API-connected operations.
- Supported Android testing, debugging and deployment workflows.

Vanigam 6 | PHP, MySQL - Existing Application Enhancement

- Enhanced and maintained an existing business-services marketplace rather than rebuilding it from scratch.
- Improved operational reliability and security around authentication, provider listings, search and enquiry workflows.

TECHNICAL SKILLS

Backend & APIs: PHP, Laravel, MySQL, REST APIs, authentication, RBAC, session workflows

Frontend & Mobile: JavaScript, TypeScript, React, HTML5, CSS3, Bootstrap, Flutter, Dart

WordPress: WordPress, Elementor, custom PHP/CSS, WooCommerce exposure, troubleshooting, migrations, security hardening

Integrations: Meta APIs/OAuth, Razorpay, Google Maps, SMTP, DLT/OTP SMS, OneSignal

Production Delivery: Git/GitHub, Postman, Linux/VPS, cPanel/Hostinger/CyberPanel, DNS, SSL, deployment, debugging, AI-assisted development

EDUCATION

M. Kumarasamy College of Engineering

2019 - 2023

B.E. Computer Science and Engineering | CGPA: 7.6
