

KIRUBANANTHAN T

Software Engineer | Full-Stack & Backend Development

Tamil Nadu, India | Open to relocate to Dubai / Abu Dhabi, UAE | +91 8220772090 | [Email](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of post-college experience building and operating production web and mobile systems. Strong in backend engineering, REST APIs, SQL/MySQL, authentication and access control, integrations, debugging, and end-to-end delivery. Experienced owning features from problem definition through implementation, deployment, and production support across SaaS, marketplace, logistics, and internal business applications. Strong JavaScript/PHP background with hands-on TypeScript and Node.js exposure, and comfortable learning new technologies quickly.

TECHNICAL SKILLS

Programming: JavaScript (ES6+), TypeScript, PHP, SQL, Dart, HTML5, CSS3

Backend & Data: REST APIs, Node.js, MySQL, relational database design, query optimization, authentication, RBAC, session management

Engineering: System debugging, API integrations, secure coding, server-side validation, Git/GitHub, Postman, Agile delivery

Deployment & Tools: Docker, Kubernetes basics, cPanel/VPS, SSL, Linux hosting, Flutter, Bootstrap, jQuery, AI-assisted development

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer | Pandssa Web Media | Apr 2025 - Present

- Owned backend features and REST APIs for production applications, translating business requirements into database schemas, secure server-side logic, integrations, and deployable releases.
- Designed and optimized MySQL data models and queries; implemented authentication, RBAC, OTP flows, validation, session security, and CSP controls for multi-role applications.
- Debugged production issues across application, database, API, hosting, and integration layers, tracing failures to root causes and shipping fixes to live systems.
- Built and maintained customer-facing and internal products including booking, logistics, HRMS, and task-management systems; collaborated with non-technical stakeholders and handled deployments and production support.

PHP Developer Intern | Qadiri IT | Jan 2025 - Mar 2025

- Developed CRUD modules, relational database schemas, validation workflows, and secure user-session handling using PHP and MySQL.

Flutter Developer | Redcaso Solutions | Aug 2023 - Dec 2024

- Built responsive Flutter interfaces, integrated REST APIs, and contributed to debugging and performance improvements for Android applications.

SELECTED PROJECTS

Zentrow - SaaS Task Management Platform | PHP, JavaScript, MySQL

- Built and commercialized a role-based SaaS product with real-time task timers, dashboards, team workflows, secure backend architecture, and 200+ active users.

SpotMyStudio - Booking Marketplace | PHP, MySQL, REST APIs, Razorpay, Maps

- Designed multi-role booking workflows, dynamic pricing, payment integration, location search, and API-driven backend logic from implementation through production deployment.

BinBux - Logistics Platform | Flutter, Dart, PHP, REST APIs

- Built the mobile app, admin workflows, and REST API backend for pickup scheduling and order tracking; managed the product lifecycle through Google Play publication.

EDUCATION

B.E. Computer Science and Engineering | M. Kumarasamy College of Engineering, Tamil Nadu | 2019 - 2023 | CGPA: 7.6
